## Edge Management cluster definitions

There is one Edge Management cluster definition available to deploy Edge Flow Manager in CDP Public Cloud: Edge Flow Management Light Duty for AWS.

This cluster definition supports installing Edge Flow Management clusters running Edge Flow Manager (EFM). During Technical Preview, EFM is delivered as a 1-node deployment. No heavy duty/clustered deployment is available. Cloudera will provide a heavy duty template with a 3-node EFM cluster in a later release of CDP Public Cloud

## Edge Management cluster layout

Review the layout and capacity of the Edge Flow Management: Light Duty cluster definition.

Each of the cluster nodes includes:

- 
- 

You can use the Edge Flow Management: Light Duty cluster definition in development, testing, or proof of concept scenarios.
