Managing groups in CDP One

A user with the Groups Admin role can create and manage CDP One groups.

To manage groups, click Manage Group Membership under Security on the CDP One console:

The Groups tab on the Management Console User Management page appears:

The screenshot displays the Cloudera User Management console. The left sidebar contains navigation options: Dashboard, Environments, Data Lakes, User Management (highlighted), Data Hub Clusters, Data Warehouses, ML Workspaces, Classic Clusters, Shared Resources, and Global Settings. The main content area is titled 'User Management' and has tabs for Users, Groups (selected), Identity Providers, and Workload Password Policies. A search bar for groups is at the top, along with a 'Create Group' button. Below is a table of groups with columns for Name, Sync Membership, and Creation Time. At the bottom right, it shows 'Displaying 1 - 15 of 15' and '25 / page'.
