## Monitoring Clusters

The Overview page provides you with tools to see a snapshot of the Kafka cluster you are monitoring.

### Viewing Cluster Overview Information

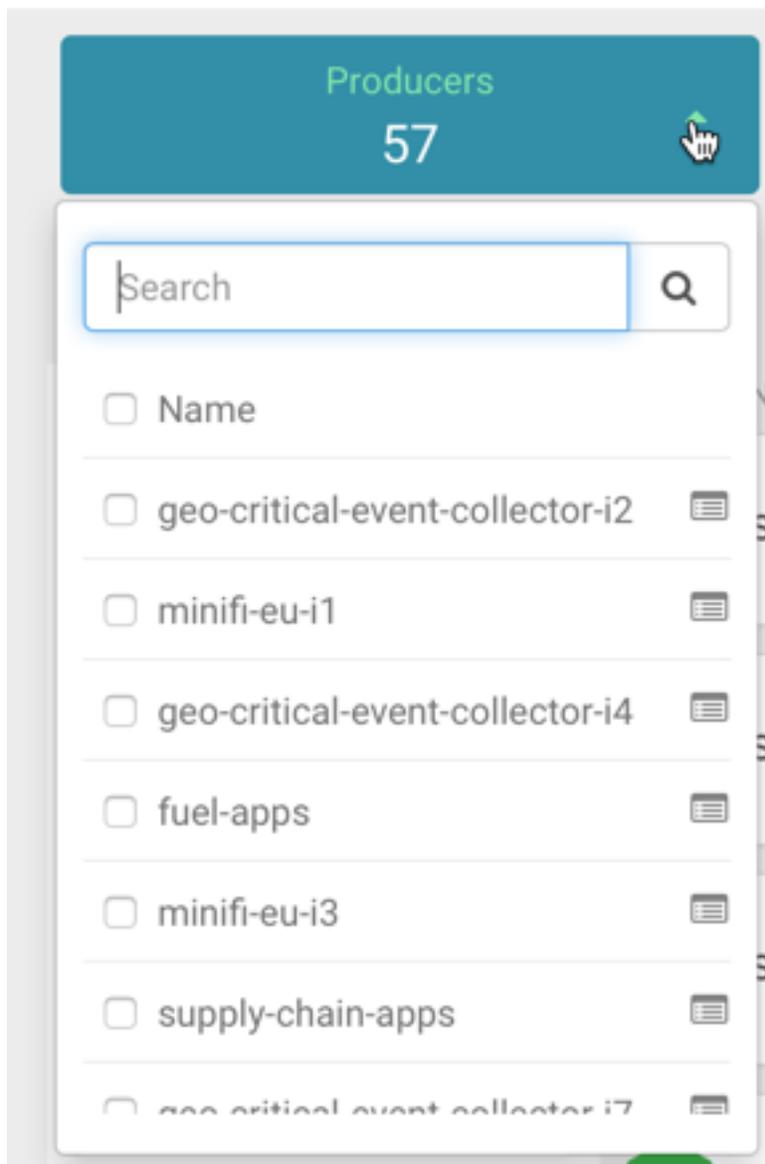

You can use the Overview tab to review information about your Kafka cluster. This page gives you information about total number of producers, brokers, topics, and consumer groups. It also provides more detailed metrics about producers and consumers.

Review the Producers, Brokers, Topics, and Consumer Groups information at the top of your page to understand how many of each are contained in your Kafka cluster.

You can click the drop-down arrow in any of the boxes to view a list of Kafka resource. Select one or more Kafka resource to filter your view to just those resource. You can also search for a specific resource. You can click clear at any time to return to the full Overview.

## Overview

## Monitoring Producers

### Understanding Producer Naming Conventions

The Producers you interact with in SMM are named based on the `client.id` property you added when creating Kafka producers.

### Active vs. Passive Producers

On the Overview page, Producers are referred to as active or passive. Producers are active when they are producing messages over a designated time period.

On the Producers page, passive producers are referred to as inactive.

You can set the period of time after which a Producer is considered inactive in the Streams Messaging Manager Configs screen.

1. Select Streams Messaging Manager from the services pane.
2. Click Configs and select Advanced streams-messaging-manager-common from the Advanced tab.
3. Update `inactive.producer.timeout.ms` to change the period of time after which a Producer is considered inactive. This value is specified in milliseconds.

## STREAMS MESSAGING MANAGER CONFIG ADVANCED

### Advanced streams-messaging-manager-common

inactive.group.timeout.ms

1800000

inactive.producer.timeout.ms

1800000

#### Identifying a Producer State

There are two ways to identify whether a producer is active or passive.

From the Overview page Producer pane, use the Active, Passive, and All tabs to view only active producers, only passive producers, or all of them. This allows you to see the total number of active and passive Producers.

The screenshot shows a panel titled "Producers (84)". At the top, there are three tabs: "ACTIVE (57)", "PASSIVE (27)", and "ALL". Below the tabs is a table with a header "MESSAGES". The table lists several producers with their corresponding message counts:

Producer Name	Messages
geo-critical-event-coll...	7m
minifi-eu-i1	5.9m
load-optimizer-apps	3.2m
geo-critical-event-coll...	3m
fuel-apps	2.3m
minifi-eu-i2	1.8m

From the Producers page, each producer is listed with the status visible.

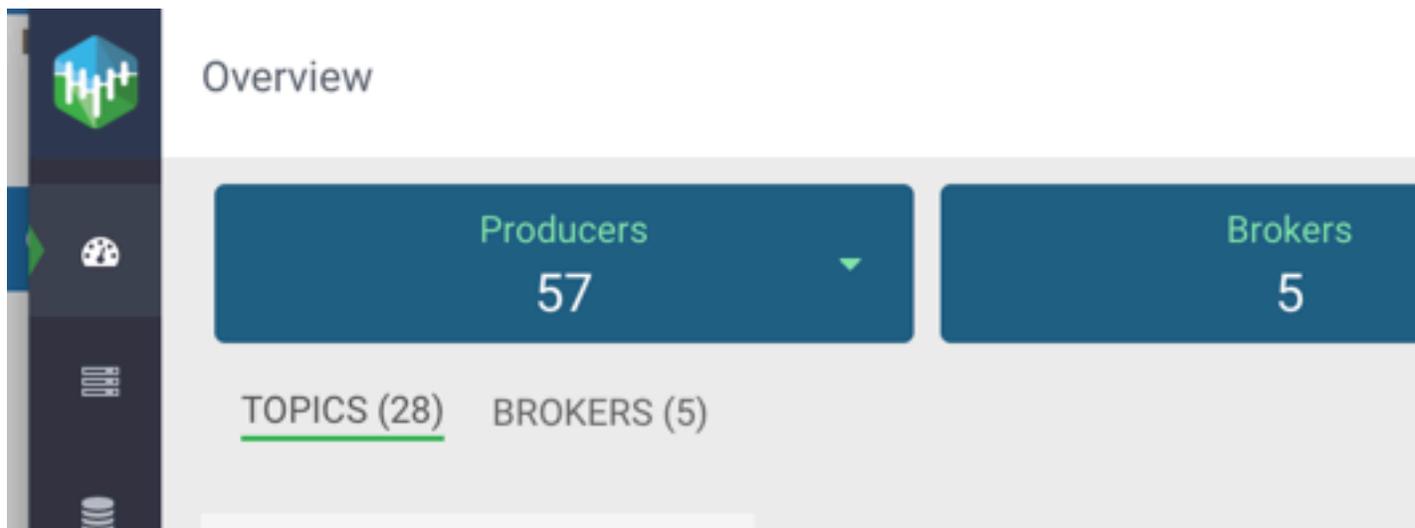

The screenshot shows three individual producer status cards, each with a green checkmark icon and a status label:

- nifi-syndicate-speed-avro** INACTIVE
- geo-critical-event-collector-i19** ACTIVE
- nifi-syndicate-geo-avro** INACTIVE

## Monitoring Topics

### Viewing the Total Number of Topics in Your Cluster

You can see the total number of topics in your Kafka cluster on the Overview page.

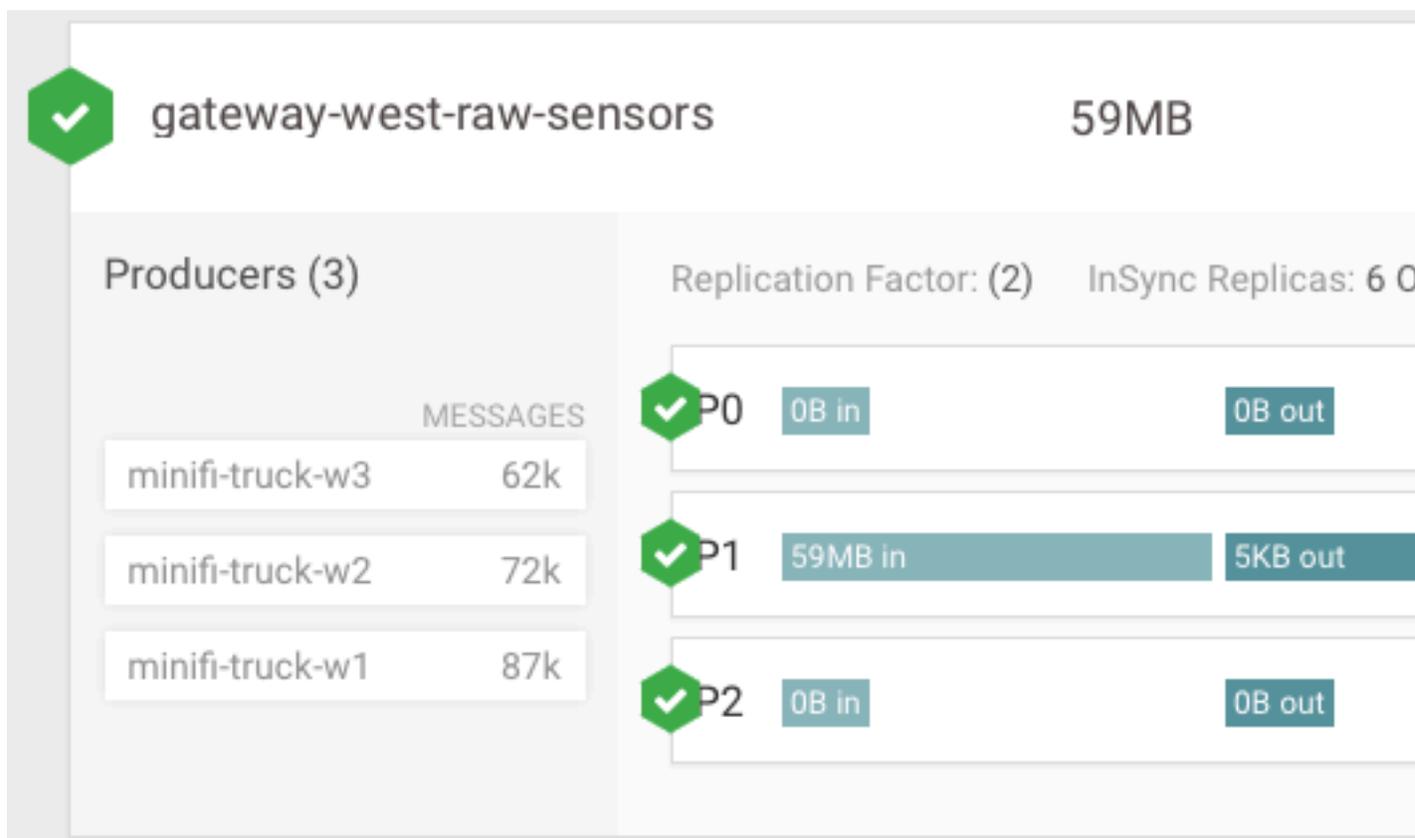

### Detailed Information about Topics

The Topic page contains a number of useful details about your Kafka Topics. This page helps you answer the following questions:

- How can I see if the replicas in this Topic are in sync?
- How do I see this Topic's retention rate?
- How can I see the replication factor for this Topic?
- How do I see the Producers and Consumers that are connected to this Topic?
- How do I find the total number of messages going into this Topic, over a specified time range?

To access this detailed Topic information:

1. From the left navigation pane, click Topics.
2. Identify the Topic about which you want information. You can either scroll through the list of Topics, or use the Search bar at the top left of the page.
3. Click the green hexagon at the left of the Topic to view details.

## Monitoring Brokers

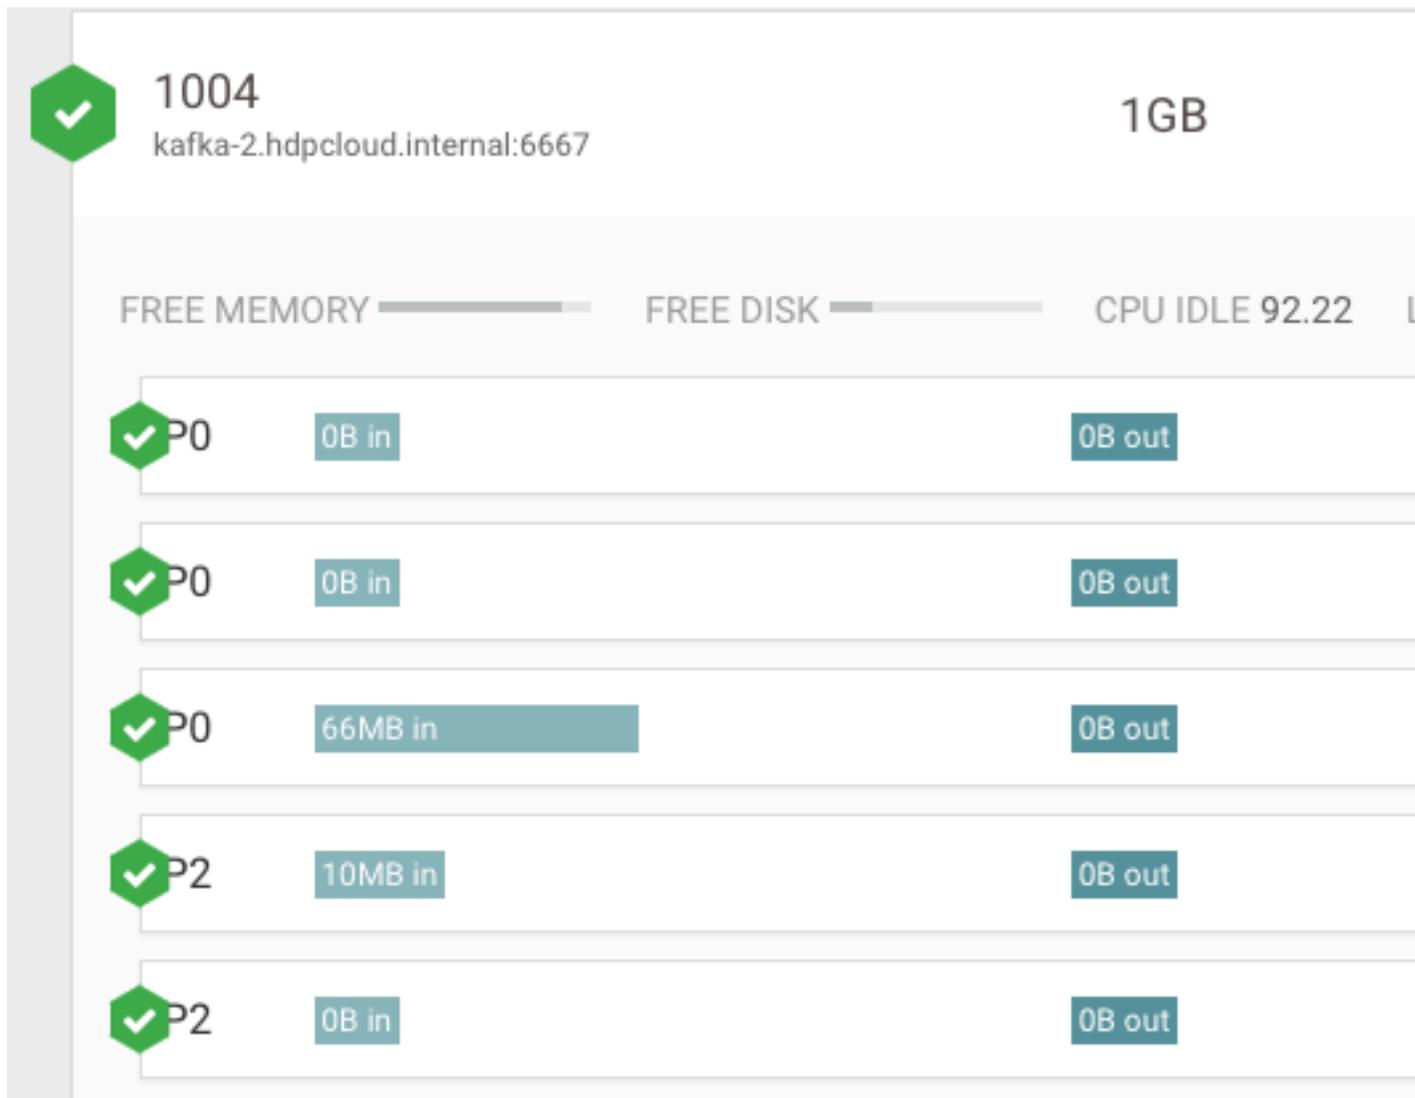

### Detailed Broker Information

The Brokers page contains a number of useful details about your Kafka Brokers. This page helps you answer the following questions:

- On what host is my Broker located?
- Is my Broker running out of disk space?

To access detailed Broker information:

1. From the left navigation pane, click Brokers.
2. Identify the Broker about which you want information. You can either scroll through the list of Brokers, or use the Search bar at the top left of the page.
3. Click the green hexagon at the left of the Broker to view details.

### Viewing Additional Details About the Broker Host

You can view additional details about the Broker host from Ambari. To access this information:

1. From the left navigation pane, click Brokers.
2. Identify the Broker about which you want information. You can either scroll through the list of Brokers, or use the Search bar at the top left of the page.
3. Click the Ambari icon on the right side of the Broker view.

Brokers (5)

	NAME	THROUGHPUT	MESSAGES I
	1001 kafka-5.hdpcloud.internal:6667	3GB	15m

## Monitoring Consumers

### Viewing Summary Information about Consumer Groups

The Overview page gives you summary information about Consumer Groups on the right side of the page. You can use the Active, Passive, and All tabs to view Consumer Groups only in the Active or Passives, or all of the Consumer Groups. Use the Lag tab to sort consumer groups based on ascending or descending amounts of lag.

### Viewing Details about a Consumer Group

To access detailed Consumer Group information:

1. From the left navigation pane, click Consumer Group.
2. Identify the Consumer Group about which you want information. You can either scroll through the list of Consumer Groups, or use the Search bar at the top left of the page.
3. Click the green hexagon at the left of the Consumer Group to view details.

**nifi-truck-sensors-west**  
ACTIVE

Partitions (3) State: **Stable**

Partition ID	Consumer Name	Partition	Bytes In
1004	gateway-west-r...	P0	0B in
1005	gateway-west-r...	P1	81MB in
1001	gateway-west-r...	P2	0B in

### Viewing the Consumer Group Profile

The Consumer Group profile displays detailed information about each Consumer Group, including:

- The number of Consumers included in the group.
- The number of Consumer instances in the group.
- Details about Consumer Group lag.

To access the Consumer Group profile:

1. From the Consumer Group page, select the Consumer Group for which you want to view the profile.
2. Click the Profile icon in the upper right of the Consumer Group tile.

### METRICS

#### Producers (3)

Producer	MESSAGES
minifi-truck-w3	90k
minifi-truck-w2	0.1m
minifi-truck-w1	0.1m
