## Default ports of Operational Database powered by Apache Accumulo

If your cluster is running firewall software, you may need to allow communication between hosts on specific ports. Review the list of the default port number for each server process and the configuration property you can use to change that value.

**Table 1: OpDB default ports**

OpDB Process	Port	Property
Garbage Collector	50091	gc.port.client
Master	10010	master.port.client
Master Replication Service	10001	master.replication.coordinator.port
Monitor (Log Forwarding)	4560	monitor.port.log4j
Monitor (Client Port)	50095	monitor.port.client
Tablet Server	10011	tserver.port.client
TabletServer Replication Service	10002	replication.receipt.service.port
Tracer	12234	trace.port.client
