Supported metastores

Cloudera Data Visualization is certified with the following metadata servers:

- *SQLite*
- *MySQL*
- *Oracle* (Requires additional packages for installation)
- *PostgreSQL*

Mobile devices

Cloudera Data Visualization is accessible in View mode from most mobile devices. This allows users to quickly access high-level insights and be alerted to potential issues that may require further investigation.

The following mobile platforms are certified to display dashboards and visuals:

- Android smartphones
- iOS smartphones
- iOS tablets

While editing datasets or building visuals is not supported on mobile, you can:

- View all existing visuals and dashboards for which you have view permissions
- Use filters and drill-downs
- Search dashboards and navigate all available workspaces from the HOME/VISUALS page

You can access a dashboard directly using the following URL structure:

```
[ ***ip_address*** ] /arc/apps/app/[ ***app_id*** ]
```

**Tip:**

Cloudera recommends that to ensure dashboards are user-friendly on small screens as well:

- Keep layouts simple and intuitive
- Minimize the need for scrolling
- Use a small number of dimensions in the visuals
- Include only essential filters

Internet browsers

Cloudera Data Visualization is certified to run on the latest versions of:

- Google Chrome
- Microsoft Edge
