Sharing the Metron Dashboard

You might want to share the queries and visualizations you've set up with other SOC personnel.

Table 1: Sharing the Metron Dashboard

Task	Description	Where to Look
Exporting search information	You can export the contents of a query or search. This option can be very useful after you've refined your search to display only the relevant information for a cybersecurity issue and you would like to send this information to another SOC team member.	Sharing a Dashboard
Importing search information	You can import the contents of a query or search. This option can be very useful if you need to view a colleague's refined search for a cybersecurity issue.	Loading a Dashboard
